Electro Mechanical Services

For over 25 years, Euro Emirates have been premier providers of specialized electro mechanical services for various infrastructure projects throughout the United Arab Emirates. Our Key Project Portfolio exposure is wide and varied to include contracts for clientele engaged in:

- . Power-generating operations
- . Petrochemical plants
- . Fresh Water, Desalination and Waste Water projects
- . Airports, Oil Rig Platforms and Shipyards
- . Logistical operations
- . Multi Purpose real estate developments and Skyscrapers
- . Original equipment manufacturers (OEMs)

Our workforce comprises of a diverse rich skill set ensuring value addition, safety, reliability and efficiency to every project we undertake. Years of experience have enabled our core technical team to be well trained and equipped to handle a wide variety of clientele expectations. Our core services of manpower management are ISO 9001:2008 certified.

Our workers are housed in well maintained approved accommodations run by our housing division and are provided full free meals tailor-made for every nationality. Additional facilities offered include outdoor game courts for basketball, volleyball and badminton; gyms, reading rooms and indoor game facilities. Our recruitment process is streamlined to ensure required technical skills are identified for which competitive pay packages are offered. Our interview processes are videotaped and documented in detail. Our recruitment agents are carefully vetted to ensure workers are not subject to fraud and all visa and naturalization costs are borne by the company itself. Employment benefits are strictly compliant with the UAE Federal Labour Law and an additional vacation allowance is provided once every two years for every worker.

To continually ensure skills are kept up to date or upgraded, training programs are conducted periodically. We also offer facilities to enable our clients to visit and test workers in our workshops itself.

Industrial Housing

Our housing division specializes in the setup, management and operation of worker housing complexes serving varied infrastructure projects throughout the United Arab Emirates.

Our worker complexes are well maintained with round the clock maintenance and cleaning teams to ensure and maintain high standards of hygiene.

We are experienced in housing workers belonging to varied nationalities and our in-built catering facilities are equipped to provide meals of any desired cuisine. Various ancillary services including housekeeping, laundry, general maintenance, equipment maintenance and full turnkey facility management services are also provided.

We have setup and currently run contractor approved facilities all over the UAE, with major installments in Abu Dhabi, Dubai and Ajman.

EURO EMIRATES
CATERING SERVICES LLC

Industrial Catering

Euro Emirates Catering focuses on large scale industrial catering for infrastructure projects throughout the United Arab Emirates.

Our reputation and growth have come from a result of our attention to detail, quality gourmet food, efficient production using state of the art catering equipment, competent sourcing, adherence to standard hygiene and safety practices; and friendly professional service.

Our corporate catering menu has been priced and designed based on our many years of experience serving various industrial contracting majors. Our sourcing methodologies ensure that the highest quality produce is acquired efficiently, fresh and at volume pricing to reflect universal needs of healthy catering at reasonable prices. We are proficient in and currently serve for various staff categories, the following cuisines:

- . Asian Cuisine – Korean
- . Asian Cuisine – Chinese
- . Asian Cuisine – Thai
- . Asian Cuisine – Filipino
- . Asian Cuisine – Indonesian
- . Indian Subcontinent – North Indian
- . Indian Subcontinent – South Indian
- . Indian Subcontinent – Bangladeshi
- . Indian Subcontinent – Pakistani
- . Western/Inter Continental Cuisine
- . Arabic/Mediterranean Cuisine

We are also experienced in the setup of state of the art kitchen facilities at clientele premises at flexible budgets adhering to any desired standard of service. We currently run busy kitchen facilities at major infrastructure zones in Abu Dhabi, Dubai and Ajman.

Industrial Transport

Next Euro Transport is a niche transport service operator with a focus on major industrial zones in the UAE.

Our services include Passenger Transport – Short Term and Long Term; Sweet Water Tanker Supply, Material Transport and Waste Management Solutions including Sewage Tanker Disposal.

We operate a 24 hour service, every day of the week. Our services are coordinated from varied locations and adhere to a schedule approved as suitable to our customers.

Our fleet of vehicles are well maintained and regularly upgraded to ensure our customers receive a superior level of service with solutions that remain dependable and flexible to fit varied schedules and environmental needs. Vehicles over certain age routinely removed from operation to ensure our fleet remains relatively state of the art.

We are strongly committed to protecting the environment and improving the communities in which we work and live. Our waste management division collects and dispose waste to landfill and treatment facilities in compliance with the local laws and regulations of the Environment and Safety Division of the regional Municipality.
